

## Mission, Vision, Goals And Guiding Principles

---

---

<b>Mission</b>	DET delivers enterprise IT resources and services designed to optimize Wisconsin citizen interactions with state government.
----------------	--

---

<b>Vision</b>	DET works to be the service provider of choice, exceeding customers' expectations and allowing state agencies to focus on their core business.
---------------	--

- 
- 
- Improve transparency to state data and information
  - Use Lean techniques to transform IT service management practices
  - Recruit and retain highly skilled technology staff
- 

**Guiding Principles**

- Entrepreneurial
  - Customer-centric
  - Focused on eliminating duplications and lowering costs
  - Take calculated risks, rather than being risk adverse
-
